CONDOR S2 SPINDLE ASSEMBLY

**Interchangeable / retro-fittable.
Overall dimensions, mounting
holes and blade beam fixings all
same as the original spindle.**

WAISTED housing.
Reduces weight and
makes identification of
S2 spindle easy.

THICKER FLANGE at centre
to better resist bending.

Additional CAP over top
bearing to keep water and
debris away from seal lip.

HIGHER CAPACITY 6307
bearings will more than
DOUBLE the current bearing life.
(NTN sealed bearings are the
recognised best brand.)
